Without to do with the land in the Chamizal zone along the river front is no business of Mexico's or of any of that government's representatives.

This is the gist of mayor Tom Lea's letter to C. S. T. Felsom, attorney for the Carrama zovernment and in answer to one received by the mayor from altorney Folsom and also one from the Larama zovernment and in an experience of the international houndary commission, protesting against the creation of a new "redlight" district in the Chamizal zone without advice or significant and sone.

I. S. Will Continue in Charge.

Attorney Folsom's letter, written to the mayor and practically a copy of that written by Ing. Pristo reads as follows:

Engineer Antonio Prieto, Mexican commissioner of the international water boundary commission between the United States and the republic of Mexico, has requested me to write you protesting against the proposed removal of the "redlight district" of this city to the northern bank of the Rio Grande, opposite a part of the city of Juarea.

bank of the Rio Grande, opposite a part of the city of Juarea.

In "Diplomatic State."

As you are doubless aware the strip of land to which it is proposed to remove this undestrable section forms a part of what is known as the Chamiani zone, territory now in dispute between the united States and Mexico, and soil to which the government of Mexico has formally haid claim and which has been in "diplomatic state" owing to the interruption of relations between the two nations since the assassination of president Madero. The officers of the de facto government here feel that it would be a very serious infringement upon the rights of Mexico in the territory in mestion to have this class of high-year of arbitration between the two nations. Consequently, sir, we most energetically protest against the location of the proposed segregated vice district within the Chamizal none and express the hope that you will avoid placing said disdistrict—if one is designated—on soil in which the republic of Mexico claims an interest.

## SEEK TO ENJOIN

Sued to Prevent Exclusive Use of Name.

The El Paso Union Stockyards com-pany, owned by Morris & company, and which has been in operation about a year, is made the defendant in an in-junction suit filed by the Southern Stock Tards company to enjoin the use of the name "El Paso Union Stock Yards."

The position sate forth the

use of the name "El Paso Union Stock Yarda."

The petition sets forth that a part of the property of Mrs. Bennicia Lessly, in-Concordia, just east of the city, has been used for 20 years for atockyards and that during this time the stock-yards located there have been known as the Union stockyards. The name of the new concern, it is alleged, has resulted in much confusion and the loss of business to the Southern Stockyards company that was intended for them.

For this reason an injunction is usked, together with \$1,0000 danages. Judge P. R. Price has set the hearing on a temporary injunction for 10 a, 10 March 10.

ary commissioner, in the matter of the protest of Mr. Prieto to the placing of the "redlight" district in the southern part of the city of El Paso, has been received by mc. I mate that Ms. Prieto's objection is based on the ground that the government of Mexico is interested in or claims title to, the southern part of the city of El Paso.

City Has Ne Right.

For your own information, I beg to advise you that, under the late decision of the supreme court of Teams in the case of Spence va. Feenbler, the city of El Paso, though acting under a special charter, had no right to designate by ordinance any part of the city for the nurpose of being used as a "redlight" district, and the city council has no expectation of attempting to do so. However, had the city of El Paso the right to desired to place same in the southern part of the city, if would cortainly feel that it had the right to do without asking the advice or counsel of Mr. Prieto, or any one clee, except the owners or those in possession thereof.

L. S. Will Control Zone.

clue except the owners or those in possession thereof.

It. S. Will Control Zone.

I further take this opporunity to advise you that the government of the United States of America, of which I have the honor to be but an humble citisen, has been, is, and in all probability will continue to be in control of, and exercise jurisdiction and sovereignty over that part of the city of El Pase lying along the north bank of the Rio Grande, and, until my ewn governments, this city administration and I presume all future city administrations, will feel at liberty to conduct affairs within the said distraction of any officer of a foreign guvernment.

I appreciate that your interest is

ernment.

I appreciate that your interest is entirely impersonal, and only that of an attorney representing a client, but I will thank you most sincerely for conveying to Mr. Prints the sentiments herein expressed.
